Internationalisation

When studying in the Haaga-Helia International Business Programme students have several opportunities to include multicultural dimensions in their degree studies. About one half of the students in the programme come outside Finland. They represent over 60 different nationalities. Annually more than 150 exchange students study in the programme. The large international student community at Haaga-Helia offers a natural daily platform for multicultural learning. Learning of multicultural communication and business knowledge is based on the vast expertise of the Haaga-Helia teaching staff. The full-time lecturers represent several different nationalities. In addition, visiting guest lecturers from Haaga-Helia's international partner institutions give frequently lectures in the programme. In the full-time day programme students with the Finnish educational background must include either an exchange study period or work placement abroad in their degree studies. The wide network of international partner institutions all over the world helps all degree students find a suitable university for an exchange semester or two semester long double degree studies.

Work placement and cooperation with the business community

The programme works in cooperation with a wide range of different companies and organisations in Finland and abroad.

The cooperation strengthens the learning in the basic and specialisation studies and offers the students the possibility to develop their professional networks while studying. The programme offers Double Degrees with universities and universities of applied sciences abroad. It belongs to the global CIDD Double Degree network developing double degrees further together with partners.

The students of the programme can benefit from the wide network of almost 200 international partner institutions of Haaga-Helia.
